**TERMINAL AREA IMPROVEMENTS PROGRAM
NORMAN Y. MINETA SAN JOSE INTERNATIONAL AIRPORT**

Hensel Phelps Construction Co. has established a public website for firms interested in pursuing subcontracting opportunities associated with the Norman Y. Mineta San Jose International Airport Terminal Area Improvement Program (TAIP).

<http://www.sjctaip-opportunities.com/index.html>

This website includes up-to-date information concerning the various elements of the Program, including competitive bidding opportunities and results. It also includes documentation vital to understanding the work and its bidding requirements.

A detailed description of each element is provided to help prospective firms match their services to the subcontracting opportunities. As individual opportunities are advertised, relevant bid documents (excluding drawings and specifications) will be available for review by prospective bidders.

As you familiarize yourself with this site, we invite you to take a moment to complete our prequalification questionnaire so that we may notify you of future opportunities.

Should you have any questions regarding this website or any of the TAIP subcontracting opportunities, please contact us via the website or by calling 408.441.4000.
