### New Award Winning Airport!

The \$1.3 billion Airport Modernization Program was completed in June 2011 resulting in an award-winning international airport for San José and Silicon Valley. The comprehensive improvements included the construction of the new Terminal B and modernization of the existing Terminal A. Also included was a new rental car center conveniently located across the street from Terminal B and wider roadways with improved lighting and signage. New concessions and customer service amenities, including comfortable seating with built-in power outlets, free WiFi and public art were added as finishing touches to this world-class airport!

### Convenient Rental Car Center

A state-of-the-art Rental Car Center is home to the Airport's ten rental car companies and their associated operations, including customer service, administrative offices, ready/return parking, fueling and maintenance facilities. The facility provides parking spaces for cars.

### "Hands" Public Art

The Rental Car Center's impressive facade, created by Christian Moeller, spans 1,240 feet wide and stands seven stories high. The iconic community hands are raised to the sky with gestures of "welcome" and "farewell" to arriving and departing visitors alike.
