NEWS RELEASE

Lyft Now Picking up Travelers at Silicon Valley's Airport

-- Second Ridesharing Company Permitted to Operate at SJC --

San José, Calif. – Travelers now have another ground transportation choice at Mineta San José International Airport (SJC) with the announcement that Lyft is now permitted to pick up passengers. Lyft is the second ridesharing company to reach an agreement to pick up and drop off travelers at the Airport.

“We are pleased to welcome Lyft to Mineta San Jose International Airport,” said Mayor Sam Liccardo. “Silicon Valley travelers have been yearning for ridesharing options at our airport, and we are happy to see companies like Lyft help ensure that travelers have a variety of transportation choices when they fly to and from SJC.”

“We’re excited that Mineta San Jose International travelers are now able to get a Lyft ride to and from the Airport, especially during this busy holiday season,” said Lyft’s Senior Director of Business Operations Bakari Brock. “We’d like to thank Mayor Liccardo, the San Jose City Council, and Director of Aviation Kim Becker and her team for their work to bring modern transportation options to SJC.”

“Lyft is now authorized to pick up SJC travelers on the Airport,” said Director of Aviation Kim Becker. “Airport staff works closely with our Mayor and Councilmembers to deliver the world-

class facilities and services that our customers expect. Delivering Lyft to Silicon Valley travelers is another example of our commitment to customer service and safety."

Lyft and all other authorized ridesharing companies pick up travelers at SJC's designated ground transportation islands as follows: **Stop 7 for Terminal A** and **Stop 5 for Terminal B**. Signage directs travelers to the Transportation Network Company (TNC) pick up areas. All TNCs are authorized to drop off passengers at the departures curbsides of both terminals.

SJC authorized Wingz to begin picking up SJC travelers on Nov. 23, 2015. Airport staff continue to communicate and collaborate with other ridesharing companies to reach agreements to begin operations at the Airport.

About Lyft

Lyft is a mobile app that seamlessly connects passengers in need of a ride with nearby drivers. Simply download the app for iPhone or Android, then request a ride with the tap of a button and a friendly driver will be on the way. All payment is handled through the app using your credit card of choice, Apple Pay, or PayPal. Safety is a top priority for Lyft, and we've implemented strict safety criteria to protect the community. Lyft launched in June 2012 and is now in more than 190 cities across the country.

About Mineta San José International Airport

Mineta San José International Airport (SJC) is Silicon Valley's airport, a self-supporting enterprise owned and operated by the City of San José. SJC served 9.6 million passengers in Fiscal Year 2015, a 5.4 percent increase year-over-year. SJC offers approximately 150 peak daily flights on 13 domestic and international carriers to 35 nonstop destinations.

SJC's five-star customer service experience sets it apart from other Bay Area and US airports. Airlines and passengers respond positively to SJC's customer amenities, including modern terminal buildings, free and fast WiFi, comfortable seating with built-in power outlets, a luxurious, award-winning lounge open to all travelers, a duty free store offering an enhanced shopping experience, a rental car center conveniently located across from the terminals and Global Entry kiosks to expedite arriving international passengers. Silicon Valley's airport is located in San José, California's third largest city and the nation's tenth largest city. SJC facts can be found [here](#).
